Date

### **Summary Statement:**

The Board of Trustees passed a moratorium on medical marijuana and directed staff to have regulations approved prior to the end of the moratorium.

### **Detail of Issue/Request:**

When the Board of Trustees passed the moratorium on medical marijuana, they directed staff to have regulations approved prior to the end of the moratorium. In order to prepare regulations, staff needed to know the direction the Trustees wanted to proceed on the issue. The Trustees could choose to allow medical marijuana commercial operations, ban medical marijuana commercial operations, or take the question to a vote of the citizens.

Following with a discussion of the Board at a worksession, it was determined that the direction of the Board is to ban medical marijuana commercial operations and regulate primary caregivers.

**Legal/Political Considerations:**

Legal staff has been involved in all discussions at the staff level.

**Alternatives/Options:**

The Board of Trustees could choose one of the following options:

1. Allow medical marijuana commercial operations and regulate primary caregivers.
2. Ban medical marijuana commercial operations and regulate primary caregivers.
3. Ask the voters within the Town what their choice is.

**Financial Considerations:**

Not Applicable.

**Staff Recommendation:**

Staff recommends having the Board direct staff to prepare regulations banning medical marijuana and regulating primary caregivers.
